

Name: Gary Hobson

Date: June 4, 2025

Organizing Your Financial Information

Monthly Income

Instructions: Identify all the money you earn in a month, such as:

- Salary or wages from your main job
- Money from side hustles, freelancing, or part-time work
- Regular earnings from investments, rental properties, or royalties
- Alimony or child support

(HINT: If your income fluctuates, calculate an average based on the last 6 months to get a reliable estimate.)

Then, total your monthly after-tax income.

- Use this space to itemize all your sources of income (e.g., Salary: \$2,000).
- Add more bullets as needed.

Monthly after-tax income

\$ 2,500

Fixed Expenses

Instructions: Identify all the recurring nonnegotiable costs that keep your life running, such as:

- Rent or mortgage
- Utilities (e.g., electricity, water, and internet)
- Debt payments (e.g., student loans and credit card minimums)

Then, total your monthly fixed expenses.

- Use this space to itemize all fixed expenses (e.g., Rent: \$800).
- Add more bullets as needed.
